MA.RI.NA. Systems - Via F. Baracca, 3 - 24034 Cisano Bergamasco (BG) Italy

**25°**  
ANNIVERSARIO

Marina Systems is a young and dynamic Italian company.

It produces and sells lawn mowers for professional and domestic use.

Its products are at the highest level of quality and performance in the market.

Marina Systems headquarters are based in CISANO Bergamasco, Bergamo, Italy.

Marina Systems was founded in early 90s by Mr. Pierluigi Rivolta.

Started as a lawn mowers manufacturer, the company expanded in 2001 from 7.000 covered square meters to 17.000 covered square meters expanding also its products range, offering today a wide range of machines for the garden care and outdoor maintenance with the goal of giving a better and faster service to its customers.

Capillarity, service, customer care and warehouse automation brought Marina to its actual relevant position in the Lawn Mower Market in Europe.

Proud of its 100% MADE IN ITALY products, Marina Systems is always trying to innovate and to discover new products.

Customer satisfaction and customer focus are two driving values of the company, shown even by the warehouse with all spare parts of 25 years of production.

The Company and its working team commitment for the future is to continue with the same dedication and passion demonstrated in the last 25 years, willing also to improve and innovate constantly for a winning future.

## Quality & Warranty

### 25 years of production spares parts in our warehouse!

All our products are severely tested and approved for conformity, the tests are done for security and safety of the end user.

**Sphere test:** this test method consist in throwing 100 hardened steel balls under the operating mower, no holes has to occur in the cutting-means enclosures, guards or grass catcher wich has allowed a ball to pass through. No deformations shall occurs, no dislodging of the grass catcher or guard nor any opening of a zipper or eam of the grass catcher.

**Impact test:** A steel bar is pushed under the mower blade that is blocked and has to remain in place without braking.

**Noise test:** Machinery must be designed and constructed in such a way that risks resulting from the emission of airborne noise are reduced to the lowest level. The level of noise is assessed with specific instruments.

**Vibration test:** Machinery must be designed and constructed in such a way that risks resulting from vibrations produced by the machinery are reduced to the lowest level. The level of vibrations is assessed with specific instruments.

**Risk Analisys:** many other tests are conducted to verify essential health and safety requirements to prevent hazardous injuries.

### Warranty

Standing behind our products for more than 25 years.

WARRANTY service is available only through Marina Authorized Service Dealers. This warranty covers only defects in materials or workmanship. It does not cover damage caused by improper use or abuse, improper maintenance or repair, or normal wear and tear, or stale or unapproved fuel Improper Use and Abuse. Using the product in a way not described in the Operator's Manual or using the product after it has been damaged will not be covered under this warranty. Warranty coverage will also not be provided if the serial number on the product has been removed or the product has been altered or modified in any way, or if the product has evidence of abuse such as impact damage or water/chemical corrosion damage.

Improper Maintenance or Repair - The service parts must be maintained according to the procedures and schedules provided in the Operator's Manual and serviced or repaired using genuine MA.RI.NA. Systems parts. Damage caused by lack of maintenance or use of non-original parts is not covered by warranty.

Normal Wear - Like most mechanical devices, the service parts is subject to wear even when properly maintained. This warranty does not cover replacement or repairs when normal use has exhausted the life of a part or the equipment, unless the cause is due to defects in material or workmanship. Equipment damage caused by stale fuel or the use of unapproved fuels (such as E15 or E85 ethanol blends) is not covered by warranty. Other Exclusions - This warranty excludes damage due to accident, abuse, modifications, alterations, improper servicing, freezing or chemical deterioration. This warranty does not include engines. This warranty also excludes failures due to acts of God and other force majeure events beyond the manufacturer's control.

For warranty evaluation, your product must be returned directly to MARINA SYSTEMS Warranty Department or to an Authorized Service Dealer. All shipping to Warranty must be pre-paid and insured. The marina SYSTEMS cannot be liable for lost in-bound packages. Products accepted for repair has to be clean. Charges will be assessed if cleaning is necessary or product may be returned if it cannot be adequately cleaned.

- a) Warranty is valid for 24 month for domestic use and 12 month for professional use.
- b) Engine warranty will be managed by the engine producer.

The purchaser must save his proof of purchase receipt. The warranty period begins on the date of purchase by the first retail or commercial consumer. "Consumer use" means personal residential household use by a retail consumer. "Commercial use" means all other uses, including use for commercial, income producing or rental purposes. Once a product has experienced commercial use, it shall thereafter be considered as a commercial use product for purposes of this warranty.

## Sales Network

Marina products are powerful and performing instruments.

In order to ensure performance and long-time usage it is import to service them regularly by an authorised service centre.

For this reason, only qualified dealers can offer you a Marina system product.

In a Marina qualified dealer, you will find knowledge, professionalism and the attention you deserve.

Our dealers will be glad to help you choosing the best product for your needs and they will also suggest you how to properly use a Marina product.

You will love your Marina products for many years!

A black and red lawnmower is positioned in the lower-left foreground, partially obscured by tall, vibrant green grass. The background features a calm blue body of water, possibly a lake or a large pond, with a white building and a covered walkway visible in the distance. The overall scene is bright and sunny, suggesting a clear day.

# MA.RI.NA

Top performance  
for any cutting needs.

**Top of the range**, full optional & top quality construction.

**Zincked Metal wheels** with sealed double bearings, no fear of humidity.

Black carter, available in three aluminium models (45, 51,56) and 2 steel models (41, 60) equipped with a grass catcher. Three models with 4 in 1 cutting system (46, 54, 57): with or without grass catcher, lateral discharge and mulching.

Heavy-duty steel's cutting decks and easy-start engines, high back wheels to ensure a smooth run and minimized play, even after many years of use.

**High lift blade** for an optimal grass catcher filling.

High volume semi rigid grass catcher, full indicator and protection of the user from the dust.

Ergonomic Handle bar, foamy grip height adjustable and quick release.

**Central height adjustment system**, one lever only to regulate the cutting height (20-65 mm).

Available with variable drive speed on bigger models, to adjust the speed according to your needs and the condition of the lawn.

# SPARTAN

The maximum in practicality and functionality with the minimum investment.

# SPARTAN

SP 41 B

**Practical and economic**, however with the same construction quality that distinguish all our product range.

Four models available in white with steel carter from 40cm to 52 cm (cutting width), push or self propelled.

Wheel height regulation dedicated on push models and centralized for rear wheels in self propelled models.

Nylon and PVC wheels on double bearings. Water plug for easy wash of the carter and the blade.

Soft grass catcher.

SP 41 C

SP 46 SC

SP 52 SB

**Wheel height regulation dedicated on punch models and centralized for rear wheels in self propelled models**

**Water plug for easy wash of the carter and the blade**

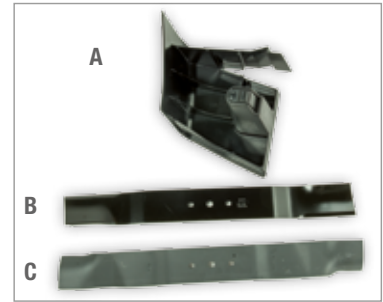

**Ergonomic top handle bar**

**Foldable handle for an easy storage**

**Nylon and PVC wheels on double bearings**

**A. Mulching block (optional)  
B. Standard blade (standard)  
C. Mulching blade (optional)**

( ● Standard / - not applicable )

A young tree with a thin trunk stands on a grassy slope. The grass is green and appears to be a mix of different varieties, some with long blades and some with shorter, denser growth. The background shows more of the slope and some darker foliage.

# 4 MAXI

Unstoppable!  
Ideal to obtain a perfect cut  
even on sloping lawn.

# 4 MAXI

4-MAXI 60

With a sloping lawn our 4 maxi is the ideal mower.

**2 or 4 wheel drive** to your choice (MA.RI.NA. Patent) guarantee of a perfect adherence and progression in difficult conditions.

**Steel cartee and zincked** wheels equipped with sealed double bearings, no fear of humidity.

**235 mm wheels**, 4 Maxi is available in 3 models 48 cm, 52 cm, 60 cm.

**Double aluminium transmission with bronze gear**, a warrant of superior quality.

**High lift blade as standard equipment** to easily fill the grass catcher completely. Front side bull bar to prevent carter impacts.

**Central height adjustment system** to choose easily the height of the cut and water plug to easy wash your blade and carter, a complete equipment for an unstoppable mower.

**Lateral discharge as standard** to be used on sloping lawn and with high grass

**HONDA GCV 160** engines offer a quiet, yet powerful and lightweight combination and exceeds European exhaust emission legislation because of low fuel and oil consumption. The GCV160 Inclinable type can be used on slopes up to 45 degrees.

4-MAXI 48

4-MAXI 52

**Advancement system, 2 or 4 wheel drive (MA.RI.NA. patent)**

**Front side bullbar to avoid impacts and to ease transportation**

**Steel carter and zicked metal wheels equipped with sealed double bearings, no fear of humidity**

**HONDA GCV 160 engines offer a quiet, yet powerful and lightweight combination and exceeds European exhaust emission legislation because of low fuel and oil consumption. The GCV160 Inclinable type can be used on slopes up to 45 degrees**

**Aluminium handlebar regulator**

**3 in 1 system: side discharge, and with or without grass catcher**

A scenic view of a concrete bridge over a river. The bridge has a series of vertical supports and a central pillar. In the foreground, there is a lush green lawn with tall grasses. The river reflects the bridge and the surrounding landscape. In the background, there are mountains and a small town with colorful buildings.

# BIOMULCH

Cut & re-cut into tiny particles,  
the best biologic system  
to take care of your lawn.

# BIOMULCH

The mulching blade cuts and re-cuts the grass clipping into tiny particles. The lawn gets a steady natural diet with each cut, rather than periodic high doses of chemical fertilisers.

Available in three models:

**SPEEDY:** small, agile, light and robust. 39 cm cutting width, front side and back side bull bar to avoid cart impact and ease the transport of this fantastic mulching mower.

**BIOMULCH:** 2 in 1 system with side discharge, central height adjustment system, ergonomic handle bar with quick release system.

**GRINDER:** a true innovation in mulching mowers, it can be used even on high grass. 235 mm zincked metals wheels equipped with sealed double bearings, ergonomic handle bar, double cutting blade system. Available as push mower or self propelled, front wheel drive traction or back wheel drive traction or even 4 wheel drive traction control. Drive shaft protection system and centralized height adjustment system. The front side bull bar is both a protection and a steady handle to carry the mower (see page 38).

GX MULCH SB

Light weight to be easily transported everywhere

Minimum encumbrance to be easily stored even in small spaces

SPEEDY B

GX MULCH SB

GRINDER

**Ergonomin handle bar with quick release to be easily folded**

**Centralized height adjustment system**

**Side discharge system**

**Mulching blade with second special wing for a perfect trimming**

# ARIEGGIATORI

Clean & oxygenates  
the lawn.

# ARIEGGIATORI SCARIFIERS AERATORS

S 390 H

For a lawn without thatch and moss.

MA.RI.NA. aerators allow an optimal **oxygenation** and allow depositing of **key nutrients**.

Designed to cut through the soil, helping to remove dead moss and other debris like grass cuttings. The cutting action of the tool, either powered by electricity or petrol engine, also helps to aerate the soil, making it healthier, (almost) weed free and longer lasting.

Available in two sizes 39 cm or 49 cm.

On 390 models we equipped a 16 fixed blades scarifier shaft.

On 500 models we equipped a floating blades scarifier shaft.

As an optional you can choose to fit on 500 models a 19 fixed blades scarifier shaft or on both models you can choose to fit a spring aerator shaft (see page 39).

All models are equipped with a precision graft ergonomic lever close to the operator for easy access and millimetric regulation of the working depth.

S 390 B

S 390 C

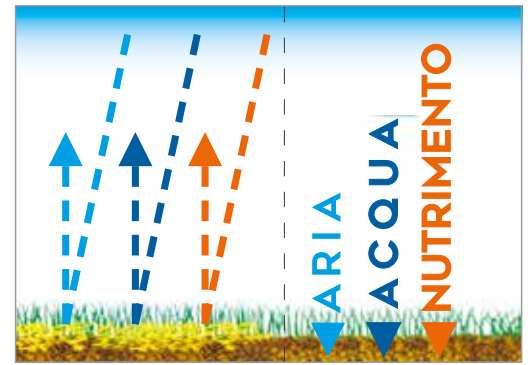

S 500 B

**S 390 E**

If dead grass cuttings and moss are allowed to sit on the lawn's surface (**Before**) it can prevent rain water from draining deep under the ground where it's needed the most. This can lead to more moss growth. Using the S500 regularly removes the moss and tatch (**After**) and by cutting through the soil helps to remove dead moss and other debris like grass cuttings.

**Before**

**After**

**Millimetric precision working depth regulation system**

**16 Fixed blades scarifier shaft**

**Security Switch**

**Blades activation lever**
